

BUILD YOUR OWN BALLOON RACER

In the Future of Transportation, congestion and pollution will force us to create new ways to get from point A to point B. You can spark your imagination today by building a balloon-powered zipline that zooms across your room!

WHAT YOU'LL NEED:

1 Spool of String

1 Straw

1 Pair of Scissors

1 Roll of Masking Tape

1 Balloon

Tip: be careful with the scissors. Ask a grownup if they would like to help you.

WHAT YOU'LL DO:

1. Start your zipline: Attach the end of your string to a wall with masking tape. Next, unravel the string until you reach the other side of your room. Now cut the string from the spool, but leave a little extra for adjustments.

2. Set the straw: Thread the free end of the string through the straw and then attach it to the second wall with masking tape.

(Tip: removing slack from your zipline will result in a smoother ride for your balloon.)

3. Fuel your balloon: Get your balloon ready to go by filling it with air. Once you blow the balloon up as big as you can, clamp its mouth between your fingers.

4.

Let it rip: Without letting out any air, use a piece of tape to attach the balloon to the straw with the mouth of the balloon practically touching the wall. All that's left to do is unclamp your fingers and watch it ZOOM!

Don't forget: Remove all masking tape from the wall right after the experiment so that it doesn't dry out and peel paint.

This experiment is brought to you by the Texas College Savings Plan® and the Texas Tuition Promise Fund®. Visit SaveNowForCollege.org to discover two great ways to start saving for a child's higher education and find more fun and futuristic activities.

MEET YOUR FUTURE

800-445-GRAD (4723), option #3

800-445-GRAD (4723), option #5

Two great plans, one bright future.

Purchasers should carefully consider the risks, administrative fees, service and other charges and expenses associated with the Plans, including Plan termination and decreased transfer or refund value. The Plan Descriptions and Agreements contain this and other information about the Plans and may be obtained by visiting www.texascollegeavings.com or calling 800-445-GRAD (4723), option #3 for Texas College Savings Plan, and www.texascollegeavings.com or calling 800-445-GRAD (4723), option #5 for Texas Tuition Promise Fund. Please read these documents carefully before purchasing.

Neither a Texas Tuition Promise Fund contract nor any return paid with a refund is insured or guaranteed. The contracts have not been registered with the U.S. Securities and Exchange Commission or with any state. No part of a Texas College Savings Plan account, the principal invested, nor any investment return is insured or guaranteed. An account might not make money and could lose money (including the principal invested) if money is invested in the Texas College Savings Plan. Interests in the Texas College Savings Plan have not been registered with the U.S. Securities and Exchange Commission or with any state and are not deposits or other obligations of any depository institution.

As stated in the current Plan Description and Savings Trust Agreement for the Texas College Savings Plan, total fees for the Texas College Savings Plan portfolios ranged from 0.60% to 1.00%. Fees are subject to change.

The Texas College Savings Plan and the Texas Tuition Promise Fund are established and maintained by the Texas Prepaid Higher Education Tuition Board and are distributed by Northern Lights Distributors, LLC, member FINRA, SIPC. NorthStar Financial Services Group, LLC ("NorthStar") is the Plan manager and administrator of the Plans.

NorthStar Financial Services Group, LLC, is not affiliated with Northern Lights Distributors, LLC.

Non-residents of Texas should consider whether their home state offers its residents a 529 plan with tax or other advantages that are only available to participants in that state's plan.
